

A3 TI WALLET

Shown at 66% of actual size

Description

A functionalist wallet design, with ease of use balanced with a small footprint in the pocket. Unbroken aluminum surfaces provide an amount of RFID blocking for potentially increased security. Large enough for bi-folded US paper currency, and credit cards with room to spare. Triangle allows for easy access for cash and frequently used cards. Multiple configurations are possible. With integrated bottle opener.

Materials

Titanium, Buna-N rubber

Available finishes

Raw bead-blasted (no anodization)
